think back to a time in your life that you made a decision that you now regret oh don't be so coy everybody has one okay maybe not mother teresa or bruce springsteen but unless you're mother teresa or bruce springsteen and we're pretty sure you're not you have been in that position what if you could go back in time and change that decision what if you could make the other choice or even better choose a third option that you didn't even see at the time wouldn't you like to know how things would have turned out if only you had done something different at that critical juncture in your life don't bother have you never read any science fiction time travel stories don't you know that they always end with either dinosaurs becoming the dominant species on the planet or your grandfather killing hitler causing you to be born with a speech impediment and an irrational fear of listening to born in the usa time branches are not something you can borrow books from they are paths to realities that you couldn't anticipate and don't want to live in and just try to get a decent corned beef on rye in any of them in random dingoes the third transdimensional authority novel by ira nayman investigators noomi rapier and crash chumley look into reports of a drug that allows people to travel between universes without technological assistance they methodically work their way up the drug rings chain of command and are just about to arrest its leader when time travel happens with the assistance of time agency agent radames trafshanian noomi and crash must navigate realities they hadn't anticipated and which they wouldn't want to live in but can they find a decent corned beef on rye you'll have to read random dingoes to find out

how to predict and calculate the positions of stars planets the sun the moon and satellites using a

personal computer and high school mathematics our knowledge of the universe is expanding rapidly as space probes launched decades ago begin to send information back to earth there has never been a better time to learn about how planets stars and satellites move through the heavens this book is for amateur astronomers who want to move beyond pictures of constellations in star guides and solve the mysteries of a starry night it is a book for readers who have wondered for example where saturn will appear in the night sky when the sun will rise and set or how long the space station will be over their location in celestial calculations j l lawrence shows readers how to find the answers to these and other astronomy questions with only a personal computer and high school math using an easy to follow step by step approach lawrence explains what calculations are required why they are needed and how they all fit together lawrence begins with basic principles unit of measure conversions time conversions and coordinate systems he combines these concepts into a computer program that can calculate the location of a star and uses the same methods for predicting the locations of the sun moon and planets he then shows how to use these methods for locating the many satellites we have sent into orbit finally he describes a variety of resources and tools available to the amateur astronomer including star charts and astronomical tables diagrams illustrate the major concepts and computer programs that implement the algorithms are included photographs of actual celestial objects accompany the text and interesting astronomical facts are interspersed throughout source code in python 3 java and visual basic and executables for all the programs and examples presented in the book are available for download at [celestialcalculations github io](https://github.com/celestialcalculations)

when the fairon race became obsolete they were secretly scheduled for elimination by the grand security council of the universe the fairons managed to find out about their imminent termination and decided to fight back with the odds mounting against them the fairons must figure out a way to defeat

the grand security council and plan the invasion of earth

an innocent accountant a broken fbi agent and an emotionless analyst are drawn into a flawed plot that will eliminate the only chance for mankind s survival how can these three none aware of the existence of the other two work in concert to overcome an insane prophet and keep the world spinning in this fast paced thriller packed full of science and intrigue these engaging characters struggle to survive the attacks of a cult of unknown assailants anita a hard working accountant is sucked into a dark world of a doomsday cult while searching for her missing brother on the sunny streets of charleston walker still healing from failures that led to the deaths of four of his agents must again face the grim reaper murphy the brainy analyst is informed of the far off apocalypse and handed the obligation of ensuring that humanity reaches for the stars to avoid extinction on a dying planet

one moment in time was all it took her digital world collided with reality gage and chance never expected to find each other in the digital realm of a post apocalyptic game gage a game designer finds herself face to face with the hero from the world she has created chance a warrior from a splintered universe uses the looking glass to enter her world he entices gage to go back with him through a mirror and help fix what is destroying his world when gage discovers that it s her own actions that caused their universe to splinter she s left with a choice to go back and fix her mistakes or watch chance s world implode with the fate of two dimensions in their hands can they save his universe before it disappears for good if you enjoy paranormal science fiction romance you ll love shifted dimension 1 click it today
